Giò Light Linear

Patrick Norguet

Patrick Norguet approaches objects and design from a graphic perspective. Since childhood, he has preferred sketchbooks to textbooks, filling them up with sketches and drawings. A “hands-on” approach of industry and design studies in Paris (ESDI) mark the unusual profile of this constructive rebel.

For Patrick Norguet, design is, first and foremost, about happy encounters. What he is most passionate about is exchanging with manufacturers, discovering their know-how; the impulse of a creative intention refined by technical constraints, economic stakes and the expectations of a user whom he hopes to discreetly but durably win over.

“A well-designed object, an object created through generous collaboration is timeless.”
From consumer products to luxury objects, Patrick Norguet leaves an impression of authenticity and elegance. Today, he is an essential figure on the international design scene.

Timeless

Giò Light is first and foremost a functional suspension lamp, discreet and, above all, timeless. Its sleek finish made of injected aluminum has a natural shape that helps to light up a room in an impeccable manner.

Personality

Giò Light comes in 5 colors: white, black, blue, yellow, and red that add a touch of color and personality to any space. The colors can be mixed and matched as desired, or grouped together for a monochrome look. Giò Light is available as a single suspension, as a cluster suspension with 3 diffusers, and as an off-center single suspension. Used alone or in a series, Giò Light inhabits spaces efficiently and elegantly.

Simplicity

“Make more with less” was the motto on this project, therefore, I endeavored to focus on that objective throughout the development of the project. Patrick Norguet

Giò Light is equally at home in a residential or commercial setting. Its simple shape gives emphasis on the light itself, and provides endless design opportunities with its elegant lines and modern look.

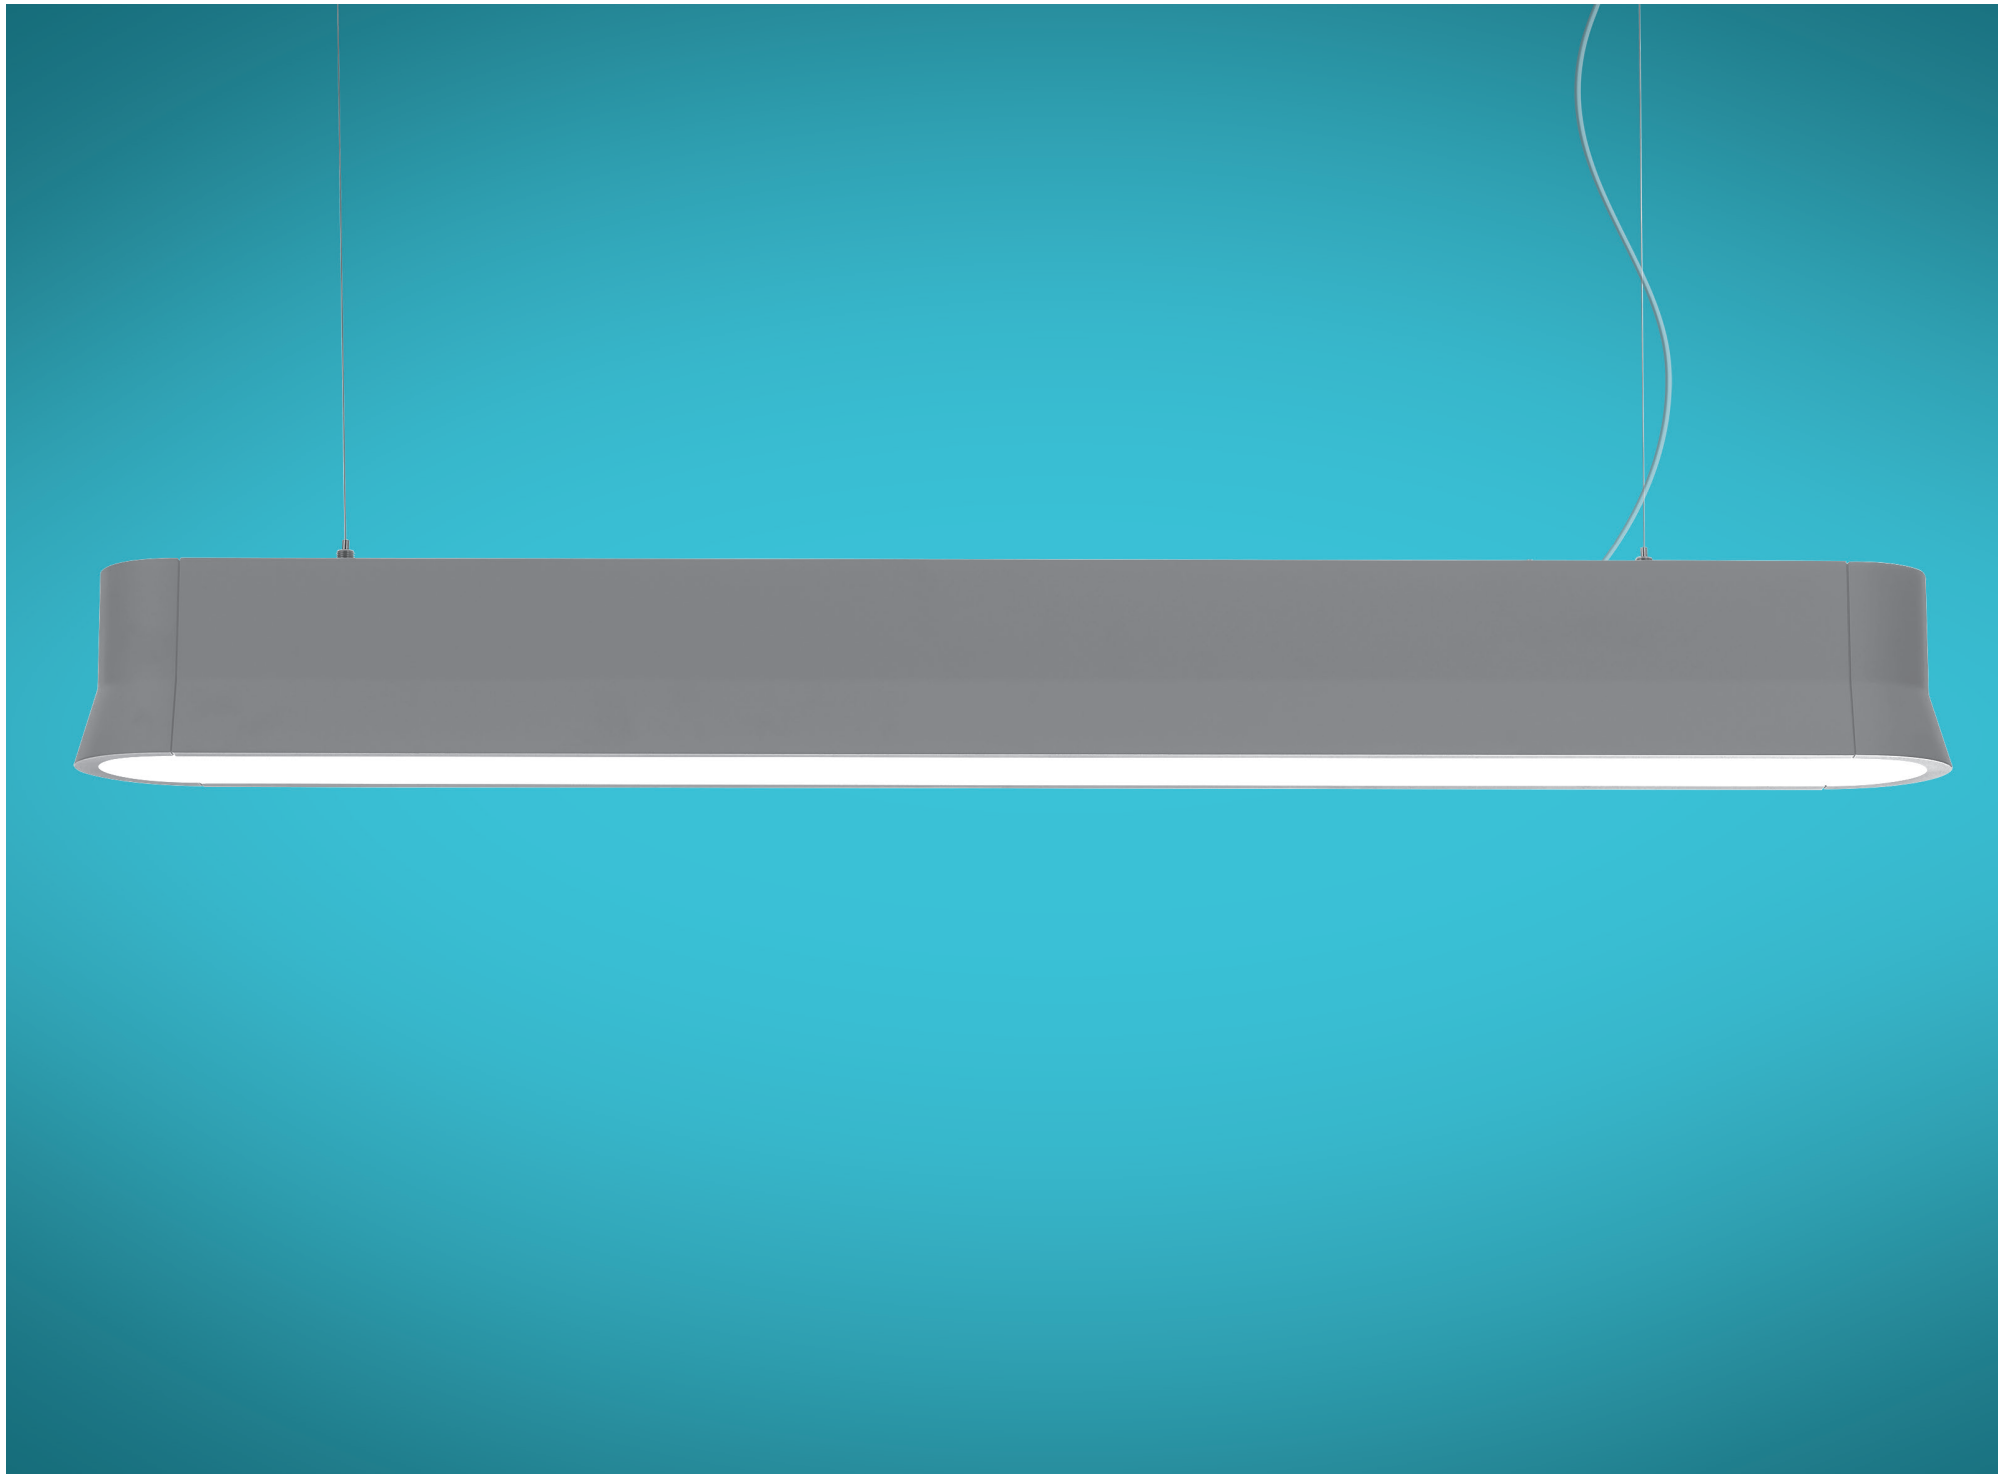

Comfort light

Giò Light Linear features a pure and simple design that can easily be integrated into any environment. Available in white, the fixture can match any interior and is ideal for any commercial setting.

Giò Light Linear delivers a powerful yet comfortable LED light that works perfectly in an office, restaurant, or other public space. Its simple linear form can be used to create rows of light arranged in any configuration. The fixture's slightly rounded form gives it a softer and more elegant feel than most traditional linear fixtures. Its form also helps to diffuse a smooth and efficient light through its round profile.
