ERNESTO GISMONDI

The father of Artemide, Ernesto Gismondi propelled his involvement in the Memphis Design movement into profoundly revolutionizing the field of lighting design in both Italy and the world. Born on Christmas Day, Gismondi began his career as an Aeronautical Engineer. Bringing industrial concepts, materials and finishes into lighting designs for both domestic and public space underlines Gismondi's adherence to meaningful innovation. Recognizing his international contributions to the field of lighting manufacture, he was awarded a Compasso d'Oro lifetime achievement award in 1995.

AMBIANCE

Available in floor and wall models, Tetragono features indirect emission from high-performance LEDs. Used in a modular configuration, Tetragono's light box creates a warm ambient atmosphere.
