Neri & Hu

↪ 2019

Founded in 2004 by partners Lydon Neri and Rossana Hu, Neri&Hu Design and Research Office is an inter-disciplinary architectural design practice based in Shanghai, China with an office in London, UK. Neri&Hu work internationally providing architecture, interior, master planning, graphic and product design services.

The multi-cultural staff speaks over 30 different languages, reinforcing a core vision for the practice : to respond to a global worldview, incorporating overlapping design disciplines for a new paradigm in architecture. Neri&Hu believe strongly in research as a design tool.

↗ NH1217

Nh1217 is a modern update to the traditional lantern. Its flexible brass handle allows the diffuser to be adjusted so that the lamp can be positioned in different ways. The brass handle can be used as a base for a table lamp or as a hook to hang the appliance from a wall or suspend it from the ceiling.

↗ NH1217 & NH Typologies

The nh family is available in multiple styles and typologies, reinforcing the idea of the fixture as a modern update of a lantern. It is a complete product range with complementary designs to complete a room.

↗ NH1217 & NH Typologies

nh suspension, with one or more glass diffusers, is available in a range of options, with a selection of arm lengths and diffuser sizes designed to complement any interior. From a simple single glass suspension, to an elaborate chandelier inspired model, nh shows its versatility.
